## *EDUCATION*

**Computer Science College, King Khalid University** 09/2020 – 06/2025

Bachelor of Science in Computer Engineering,
Second Class Honors.

## *EXPERIENCE*

**Intern at the City Administration – IT Department | Military City, Khamis Mushait, Saudi Arabia, 06/2023 – 08/2023**

As an intern in the City Administration's IT Department, I received training in several areas within the department, including networks 70%, programming "Back end – Front end" 20%, and technical support 10%. The training focused on enhancing my skills in technical fields in general and networking in particular, in order to achieve effective results in my future professional career.

- Network architecture of the departments in the military city .
- Received the authentication requests and handled them using DC server.
- Learn about the main components of the Routers & PCs.
- Periodic cable maintenance.
- Changing RAMs.
- Formatted PCs.
- Set up printers.
- Developing the employee attendance programs.

## *SKILLS*

**Technical Skills**

High-Level Programing language (Java , Python , SQL).
Network configuration .
Node-RED tool .
Web develop (Html , css , JavaScript) .
Embedded Systems (Raspberry Pi, Arduino, Microcontrollers).
Internet of Things (IoT).
MQTT, I2C, SPI, UART Communication.
Low-Level Programming (Assembly, C).

**Soft Skills**

Adaptability.
Problem solving.
Teamwork.
Critical Thinking.
Communication.
Time management.

## *COURSES*

**The Web Developer Bootcamp.**
**Introduction to Artificial Intelligence Bootcamp.**
**Node-RED Bootcamp.**
**Robotic Applications Bootcamp :** Smart Tank Project "get second place in the camp".
**Blockchain Bootcamp**.
**AWS Certified Cloud Practitioner**.
**Internet of Things & Digital transformation Fundamentals – Cisco.**

## *LANGUAGES*

**Arabic** — Native **English** — Fluent
